Description

Bronze sculpture, "Wounded Bull." Signed "F. Bonilla Villalba" on the base. On a wooden base, the figure of a bull is placed after the stages of banderillas and death, as the elements used in both cases can be seen: three banderillas and the thrust. Thanks to the great skill of the artist, we can see both the moment when the bull is about to expire and bellow and the blood flowing from its wounds. The drama is accentuated by the special treatment of the animal's skin. - Dimensions: 55x27x40 cm
