Description

Beautiful sideboard opening with 3 molded doors on the front and resting on 2 snail feet with scrolls at the front and 2 straight uprights at the back. It is topped with its original solid Cuban mahogany top! The doors have brass pins and original bronze lock entries. A pretty, animated molding frames Monoxyle panels in Cuban mahogany. The three doors still have their original locks and keys. The interior of the sideboard has retained its original layout, namely 3 shelves and a drawer at each end, a layout typical of 18th century Nantes sideboards!
