

Victorian English Table In Solid Mahogany Extendable By Tearing More Than Twice The Closed Size

4 500 EUR

Period : 19th century

Condition : Restauré par notre atelier

Material : Mahogany

Description

Victorian English table in solid mahogany extendable by tearing more than twice the closed size. Four beautiful tulip-shaped feet have a carving with a leaf motif alternating with flowers in the upper part, while in the lower part they end with four wheels in burnished bronze contemporary with the table. The top has rounded edges and an upturned groove edge, an element of great elegance and refinement. Historical notes: The term Victorian period indicates the reign of the great Queen Victoria, who governed England from 1837 to 1901: a period of enormous changes and better living conditions, these seventy years were also characterized by greater rigor in every aspect of life, including decor. Thus was born the Victorian style, original and inimitable, which became the English style par excellence,
