Description

Vintage 18k Gold Ring with Diamonds and Black and Red Enamel, Belgium, 1980s Description: Superb vintage 18k yellow gold ring, Belgian made, typical of the 1980s. The ring features an elegant geometric pattern alternating brilliant-cut diamond pavé with black and red enamel elements, creating a striking contrast. The diamonds, with a total weight of approximately 0.50 carats, are of beautiful quality, with a precise setting that highlights their brilliance. The setting is thick and domed, offering a strong presence on the finger while remaining comfortable. The weight of the ring, 9.8 grams, gives it appreciable solidity. An engraved monogram "YK" is present inside the body of the ring, but it has not been positively identified, adding a touch of mystery and exclusivity to this piece. Characteristics:
