Precious Silver-plated Bronze Inlaid Spinning Wheel, Goldsmith's Work, Circa 1850

560 EUR

Period : 19th century

Condition : Bon état

Material : Silver metal

Length : 23cm

Width : 17cm

Height : 20cm

Description

Elegant and rare 19th century salon spinning wheel from silver-plated bronze or brass, and ebony. Technical, the four oblique legs with beautiful turning are firmly screwed onto a weighted veneer base. The mechanism, composed on one side of an openwork wheel with high inertia, axis of which is wedged by two carved ebony pins, operated by a pretty wrought iron crank and ebony handle, is in line with the unwinder, tension of which is adjustable using a worm screw. On the other side, a distaff holder, but we do not have this one. Working condition, missing: a nut on crank, a leather lace or strap, an unidentified accessory. Dimensions: 23cm x 20cm x 18 cm, weight: almost 2kg. Period 1840/1850, Very rare object, probably a special order, perhaps Holland or Germany? Good
