Description

A set of five coffee or tea spoons... In solid gilded silver "vermeil"... From STRASBOURG...But nothing serious... Shell fillet model... With a flat around the edge of the spoon... Which is also very elongated... Two initials are engraved on the back of the flat "BV"... Otherwise in good condition in terms of deformation... Just the wear of use on the edges for the vermeil... And more pronounced wear of use on the back of the spoon... Hallmarks to the general farmers... I have little information for the moment but I should have some...! For information it is always rare the series even incomplete, in cutlery in the XVIIIth... Weight ... 155 gr
