fired...The barrel can thus be operated from a cord which protects the shooter...the locking rod of the breech/barrel system is missing, it is a simple nail that will have to be used... The barrel has surface oxidation, see the photosIt is functional, the spring is powerful and the cocking, the rudimentary blocking is operational
CENTRAL PERCUSSION Tested works very well, no defect, spring OKUnrifled barrel, barrel to be cleanedall the metals have a stabilized patina oxidation, the buyer will expose it or not, according to his wishes...I do not sell ammunition
