

Pair Of Gilt Bronze Candlesticks, Louis XVI Period

3 400 EUR

Period : 18th century

Condition : Très bon état

Material : Bronze

Diameter : 16

Height : 28

Description

Pair of large chased and gilded bronze torches, the fluted shaft resting on a broadly fluted base. The quality of the bronze and gilding decoration, in particular the torus with interlacing and pearl motifs and the water-leaf motif on the bobèches, suggest that they were created around 1780. Original washed gilding. Similar model in the Château de Versailles. French Louis XVI period, late 18th century.
