Description

Very beautiful small four-leaf sideboard in solid walnut. Our charming little piece of furniture dating from the 17th century rests on two square-section rear legs and two ball-shaped front legs, all topped with a molding. It opens on the front with four doors in two rows, in the center two drawers framed by three small consoles decorated with acanthus embellish the whole. The front is also decorated with six vertical motifs decorated with feathers on the uprights, as well as the door frames. The sides of the piece of furniture are paneled in the same way as the doors. The interior is entirely upholstered and decorated with pretty geometric patterns made with a braided and studded finish.
