Description

In the series "travel with style", here is the essential tissue box. This is a French model from the 19th century, known and recognizable by its particular handle of two intertwined straps. This model also exists in a version for gloves, it is then longer and thinner but always with the same pleated leather bellows system which enlarged as gloves or handkerchiefs were added. In grained leather with iron gilding. Shipping in France and internationally, contact me for terms and conditions
