Description

Beautiful Empire period fireplace mirror.
Beautiful frame with Empire palmette moldings, gilded with gold leaf, and adorned with its 2-part mercury glass, unblemished and sequined at the bottom. Large format, our mirror has all the technical qualities that enthusiasts are looking for. Moreover, its format is very practical: it remains large, but not too large. Ideal for furnishing a Parisian apartment for example. The generous proportions and the width of the frame give it opulence, but the footprint remains small. Our mirror and its frame have been cleaned by our gilder, it is clean and in perfect condition and on its original parquet floor. Height: 157cm Width: 90cm
