### Description

Beautiful pair of oil paintings on canvas depicting ideal landscapes animated by pastoral figures, attributable to the seventeenth-century Italian school. The compositions present a notable depth of perspective and a refined rendering of light, with atmospheres that vary between the serene sunset and the dramatic stormy darkness. In the first painting, the rural scene is crossed by a golden light, with shepherds and wayfarers immersed in a balanced and harmonious nature. The second painting, darker and more theatrical, represents a nocturnal scene animated by a fire in the distance, perhaps an allegory of historical or mythological events, with fleeing figures and a landscape agitated by winds and shadows. The frames are also beautiful and contemporary. Dimensions: 59cm x 114cm For
