Description

OMEGA watch from 1955 in steel. This watch features a large case aperture, unusual for its time. Its dial, which bears the brand's signature and logo, has a superb patina. Its second hand is located on a dial at 6 o'clock, also large. Its case, equally unusual for the time, is thin, discreet and sober. The watch is mounted on smooth black leather, replaced as new. This watch is equipped with a mechanical movement with manual winding, revised, the proper functioning of which is guaranteed by us for one year (except in the event of shock or immersion). Watch from a house highly appreciated by connoisseurs of watchmaking, rare for its dial opening for the time, presenting a superb patina. Condition: imperceptible micro-scratches, very good condition of the movement, new leather Year:
