Description

"Grand Apparat" This silk twill square with hand-rolled edges is available on an ivory background with gray/blue and yellow borders and features different pieces of ceremonial harness. These embossed leather harnesses edged with fringes or braids, enhanced with bronze elements, laurel leaves, royal emblems, indicate the rank of the person being transported. Held by nails and soutaches, the central painting is inspired by a drawing of a harnessed horse, intended for a carriage for the coronation of Louis XVIII. The braids recall those of the always well-groomed manes. illustrated by Jacques Eudel, published in 1962 - 1986 - 2000 and 2018, these reissues give it an ever-increasing demand for this model always sought after by amateurs and collectors. Dimensions: 87.5 x 84 cm.
