Description

Very beautiful engraving representing a hunting scene in the 19th century. Our engraving has been enhanced and colored by hand. It is decorated with a black marie-louise with sumptuous work of cartouches, foliage and garlands of flowers made in gold color. It is presented in a black lacquered frame with gold threads, Napoleon III type and protected by a glass. Magnificent work from the Napoleon III period. We point out that a second engraving presented with the same frame and marie-louise is for sale in our gallery, which can make a magnificent pendant.
