

## Vintage Solitaire Ring In 18k Gold With 3.5 Mm Natural Diamond

750 EUR

Period : 20th century

Condition : Bon état

Material : Gold

### Description

This charming solitaire ring is a truly vintage piece, showcasing a design that combines subtlety, modernity and sophistication. It is crafted in 18K yellow gold, rising into a stylized and steady structure, crowned by a bezel of white gold, where a natural diamond of approximately 3.5 mm in diameter is set. The two-tone gold combination not only enhances the purity of the diamond but also adds a striking contrast that makes it both unique and timeless. The diamond is set in a bezel mount that protects the stone while allowing it to shine brightly. This setting is highly appreciated for its security and durability, ideal for those seeking a precious jewel that can also be worn every day. The design is clean, functional, with a visual line that flows smoothly and emphasizes the sober yet contemporary character

of the piece. This ring works beautifully as an engagement ring, as a collector's piece or simply as a stylish personal jewel. It has a minimal but not simple character, where every detail is calculated to let the central stone take the spotlight. It is also a beautiful option for someone looking for an authentic and elegant piece, free of excess yet full of good design. The diamond, though small, has a remarkable sparkle. There are no visible signs of wear other than a subtle patina on the gold, which confirms its vintage authenticity. This can easily be polished if desired, although its current state retains a natural charm that collectors often value positively. An elegant and delicate piece, perfect for gifting or for including in a curated jewelry collection. Its understated style makes it ideal for both special occasions and everyday use, and its aesthetic remains relevant today, more than three decades after it was created. A jewel to wear always or to give with intention. Size: ES: 14, FR: 54, UK: O, US: 7, CN: 14. Weight: 2,8 grms. A jeweler can modify the ring size to fit the client. It can be made larger or smaller as needed. Adjusting the size of a ring is a common task for any jeweler.

#### History of Solitaire Rings

The solitaire ring, also known as a "solitaire", has a fascinating history that dates back to the 15th century, although its modern version was solidified in the mid-19th century when Tiffany & Co. introduced their iconic six-prong setting in 1886. Since then, the solitaire has become a symbol of commitment, promise and eternal love. The term "solitaire" refers to a single gemstone, usually a diamond, taking center stage in the design, and it is this simplicity that has given it enduring prestige. Over the following decades, especially from the 1950s onward, solitaire rings became hugely popular as engagement rings, boosted by historic advertising campaigns like De Beers' "A diamond is forever." In the 1990s, the solitaire design embraced more modern and minimalist lines, such as this ring that mixes yellow and white gold, reflecting a taste for subtle contrast

and clean geometry. Diamonds have been prized for centuries not only for their beauty but also for their hardness, light refraction and symbolic power. They represent purity, endurance and clarity of feeling. It is no surprise that the solitaire has become the quintessential proposal ring, as well as a staple for significant anniversaries. Today, a solitaire ring like this one offers not only a distinctive design but also growing sentimental and investment value. Pieces like this, especially when preserved in good condition and made from noble metals, can become heirloom jewels or investment assets, besides their allure as personal objects.
