18k Gold Ring With 4 Diamonds And 3 Natural Emeralds, 1980s

590 EUR

Period : 20th century

Condition : Bon état

Material : Gold

Description

This refined vintage ring, crafted in 18-karat yellow gold, is a timeless piece that blends elegance, tradition, and the enduring appeal of natural gemstones. Its design reflects the ornamental style of the late 1980s, with clear influences from classical romanticism reinterpreted in a modern key. The front of the ring features seven alternating stones: three rectangular-cut natural emeralds and four brilliant-cut natural diamonds. The combination creates a vibrant and balanced contrast where the freshness of green meets the subtle sparkle of diamonds. The emeralds, deep in color and with good transparency, show slight internal inclusions typical of natural formation, which highlight their authenticity and make each stone unique. Framing each emerald, the diamonds serve as

points of light that elevate the ensemble, adding brilliance and depth to the central composition. The setting is precise, secure, and elegant, designed to enhance the gemstones without compromising their safety. The ring's shoulders are decorated with delicate filigree scrollwork that adds visual dynamism to the design. These artisanal details enrich the piece without overwhelming it, maintaining a harmonious aesthetic. The shank is smooth, comfortable, and slightly tapered at the base, making it ideal for daily wear without sacrificing the charm of a special jewel. This is a piece that stands out for both its beauty and versatility, perfect for special occasions or as a vintage-style engagement ring. A piece with soul, ideal for those seeking a distinctive jewel with history and style. This vintage ring would look stunning in a personal collection of antique rings or as a centerpiece in elegant, romantic decor.

Size: ES: 11 - FR: 51 - UK: L - US: 5.75 - CN: 11. Weight: 3.5 grms. A jeweler can resize the ring to fit the client. It can be made larger or smaller as needed. Resizing a ring is standard work for a jeweler.

History of Rings with Emeralds and Diamonds

The combination of emeralds and diamonds in jewelry dates back to antiquity. Cleopatra herself treasured emeralds for their symbolism of power, beauty, and renewal. During the Renaissance and Baroque periods, European nobility adopted them as symbols of wisdom and status, often pairing them with diamonds as stone cutting techniques advanced in the 15th century. In the Victorian era, emerald and diamond rings became traditional gifts for engagements or anniversaries, symbolizing eternal love and hope. In the 20th century, especially from the 1950s to the 1980s, fine jewelers revisited this pairing, creating lighter, more refined pieces. In the 1980s, jewelry design embraced filigree details and floral or botanical motifs, reacting to the minimalism of the previous decade. Rings like this one, with aligned stones and decorative shoulders, became popular with women who sought elegance

without excess. Today, such rings are highly valued by both collectors and lovers of vintage style. Emeralds, prized for their rarity and rich color, and diamonds, celebrated for their brilliance and durability, form a perfect duo. Pieces from this era offer stable and appealing investment potential, especially when they retain original materials and present a harmonious design like this ring.
