### Description

This spectacular mid-20th-century cocktail ring combines the warm radiance of 18K yellow gold with touches of white gold and platinum in a bold floral cluster design. Twenty-five brilliant-cut diamonds (approximately 2.50 ct in total) are pavé-set on a raised platform, forming a three-dimensional flower, for a stunning yet sculptural effect. The generous scrollwork of the shoulders and the high domed setting exemplify the graphic, feminine aesthetic that defined 1950s-60s jewelry. Ideal for making a statement on special occasions or adding a touch of vintage glamour to any outfit, this piece embodies retro refinement at its finest.
