

Cartier "double C" Ring In 18k White Gold - Size 52

2 400 EUR

Signature : Cartier

Period : 20th century

Condition : Parfait état

Material : Gold

Description

Rooted in Cartier's iconic aesthetic, this imposing signet ring from the late 1990s is crafted in polished 18K white gold. The sculptural band, engraved around its entire circumference with the Maison's "Double C" motif, ends with two stylized Cs that intertwine to form a harmonious loop. Its generous profile and mirrored finish capture the light from every angle, highlighting Cartier's expertise in shaping form and material. Offered in a fixed size FR 52 (US 6¼), this piece cannot be resized without compromising its graphic design. Comfortable yet imposing, it embodies contemporary luxury tinged with minimalist elegance. Wear it alone as a signature piece or pair it with fine rings for a decidedly Cartier layered effect. Technical sheet House: Cartier Period: Late 1990s Metal: 18K (750?)
