

Torso Of Vishnu

12 500 EUR

Period : Before 16th century

Condition : Bon état

Material : Sandstone

Height : 67,5

Description

Torso of Vishnu
Cambodia, Pre-Khmer period,
7th century AD
Material: Beige
sandstone
Dimensions: Height 67.5 cm (including
base)
Provenance: French private collection-
Aguttes, Paris, October 24, 2016, lot 169-
Austrian art market
Description: Finely sculpted,
the four-armed deity wears a long sampot
stopping at mid-leg, raised and tied at the waist,
the pleats curving inward, the excess falling to the
middle of his legs. The torso is modeled with a
narrow waist and broad shoulders.
