Description

This sumptuous ladies' ring, crafted in 18K (750?) yellow gold, showcases an octagonal emerald of ~0.90 ct set in a bezel setting, whose intense green hue immediately captures the eye. On either side, ten old mine cut diamonds, totaling ~0.40 ct, are channel-set in galleries enriched with platinum, accentuating their brilliance. The domed shoulders feature a delicate openwork scrollwork, allowing light to circulate and emphasizing the sculptural silhouette of the piece. Combining generous weight with a comfortable fit, this retro ring - both glamorous and refined - is suitable for everyday wear as well as special occasions. A true artisanal heritage, it combines the charm of classic stones with the excellence of goldsmithing. Technical sheet Ring size: FR 55 / US 7 Period: Mid-20th century
