Description

We are offering for sale this framed oil on thick cardboard by Léonce PELLETIER, a painter born in 1869 in Pouilly-sur-Saône and died in 1950.

We classify our painting as it is from the painter's Nabis period. It comes from part of his studio that we purchased in 1993 and have kept to this day because it is of interest to us. This particularly interesting work by the painter is unfortunately not signed, simply noted on the back, but we certify it on the invoice. Very good condition.
