Depth : 50

Description

Among the treasures of vintage furniture, this chest of drawers signed Due Elle perfectly embodies the refinement of Italian design from the 1970s. Covered in brown nubuck, it stands out for its warm and sophisticated look. Its ingenious design is based on a functional organization with six identical drawers, offering practical and refined storage. A sliding element reveals an elegant surprise: an additional storage space accompanied by a mirror, highlighting its hybrid role between dressing table and chest of drawers. Its mirrored surface top, circled by a chrome bar, brings a touch of modernity in contrast with the softness of the nubuck. The whole is enhanced by a pouf on casters, also covered in nubuck, harmoniously completing the design of this exceptional piece. This piece of
