### Description

Condition of discovery, two miniatures on copper, square format, show portraits of 2 gentlemen from early 17th century, Inscriptions on back of frames helped us for description. The old gentleman, perhaps a "d'Entraigues"? is 72 years old, this portrait is dated 1629 on top left. The second, younger man is a little more naive, his starched black and white costume is spectacular. They were both framed in wooden frames plated with stamped-gilded brass, as I believe they were made in Lyon end of the 19th century Dimensions = 15.5cm x 17cm, frames: 30cm x 27cm Fairly satisfactory condition, deserve to be cleaned, just a few paint losses, a deformation of a copper in corner This item is for immediate purchase, payable by Paypal or credit card. - eclectic - antique dealers since 1970, Siret:
