

Light Column

420 EUR

Period : 20th century

Condition : Parfait état

Diameter : 35

Height : 134

Description

Amazing light column from the 80s in Polymethylmethacrylate. Composed of a base that is used to wind the wire and is 35 in diameter and a tray that is 28 in diameter. It is a pair of columns of different sizes that I can separate or join. The diffused light is soft and very pleasant. They are in perfect condition.
