A patinated bronze couple...For ADAM AND EVE...?From the first half of the 18th century...They must have been on marble bases...The bronze bases present must be bases changed in the 19th century...I will certainly have others made...!A small imperfection on a weld on the left arm of EVE on the back...Will be rectified...Besides it is very light...!I just dusted them off...For me a FRENCH production...I am waiting for some answers to be at my best...I have other photos if needed...!Or if you want more...?!For your information... They are beautifully made because the details such as the eyes, the nails and the hair are perfect...Weight for ADAM 1 kilo 796 gr Weight for EVE. 1 kilo 852 gr
