Description

Very beautiful Autochrome Lumière of an elegant woman at the edge of a clearing among broom. The Autochrome image has a distinctive appearance, often described as soft and slightly blurred, with pastel colors reminiscent of an Impressionist painting. This is due to the nature of the potato starch grains and the method of light filtration. "This is not a snapshot, but the reproduction of a frozen and composed moment, illuminated by an impression, a sensation of color generated by multiple touches of pigments modeled by the brush of light" Institut Lumière Format: 27 x 21 cm Plate: 11.5 x 16.5 cm link on our website https://www.lavalisearlesienne.com/product-page/autochrome-lumiere-el%C3%A9gante-aux-genets-circa-1910
