### Description

Let's combine: 24cm high, 21cm front and 20cm deep. We can therefore vary this set of 28 display cases as we wish: for example a column 6.72 meters high (not very practical), 3.36m if we place two side by side, but we still need to have the ceiling height... if we continue to juggle 1.68 high and 80cm wide, or 2.80 mx 48 cm etc... and this without leaving any gaps... So I offer you this incredible collection from an apothecary, a set of 28 display cases with wooden bottoms which present species of mushrooms. These polychrome plaster specimens, completely realistic, were intended for people who had picked them... They went after the harvest to the pharmacy where the specialist compared them with the didactic mushrooms.... You could, or could not, enjoy your omelette afterwards... This collection is
