Diameter : 45

Height : 40

Description

Pair of solid bronze chandeliers - Dutch style.
Superb pair of high-quality gilt bronze chandeliers, made in the 1970s in the Dutch style. Each chandelier has six light arms and has been fully electrified. The solid bronze gives them an elegant presence and a warm glow. Their timeless design and quality craftsmanship make them ideal for a refined interior: private home, architect's project, charming residence or high-end rental such as Airbnb. Very decorative, they adapt equally well to classic and contemporary atmospheres. They are currently presented with pretty white pleated lampshades, but you can easily personalize them with black or colored models for an even more chic look - like the large English houses. Dimensions: - Diameter: 45 cm - Height: 40 cm (adjustable height thanks to a
