Description

COD 01016 Refined Italian painting from the second half of the 17th century. Artwork oil on canvas depicting a wonderful view of a lake with figures, a wide mountainous landscape illuminated by a warm twilight light. In the foreground on the left we find some men-at-arms while on the right we observe a group of women intent on washing clothes, as well as some characters on the back of a camel. This particular detail in the center of the composition suggests a possible reference to the biblical episode of the flight into Egypt, a veiled and cultured allusion found in 17th-century landscape painting. Painting of notable pictorial quality, rich in minute and splendid naturalistic details. 19th-century frame in carved and gilded wood, beautifully decorated, with some signs of aging.
