

## Double-barreled Pinfire Pistol

320 EUR

Period : 19th century

Condition : Très bon état

Material : Metal

Length : totale 22 cm

### Description

We present this collector's pistol with double barrel, pinfire cartridges, retractable triggers, as you will see in the photos the barrel breaks in two like some hunting rifles. It is in its original condition in very good working order, a nice grooved walnut stock, a diamond-shaped stock termination with iron trim finished with a ring. Not a common weapon, just needs cleaning, no deep attack on the iron, everything is superficial, everything works. Free shipping for France.
