

Pair Of Brass Chandeliers

3 500 EUR

Period : 19th century

Condition : Bon état

Material : Brass

Description

Rare pair of chandeliers in embossed and silvered brass, each with eighteen lights arranged in two concentric orders. The central structure rises with elegant volutes and perforated vegetal motifs, with acanthus leaf applications and finely crafted naturalistic details. The two chandeliers were part of ecclesiastical furnishings. The silver plating is not visible because it has completely oxidized over time. 19th century, northern Italy.
