Description

We present this splendid gueridon table, made in Italy at the beginning of the 20th century. Made of solid walnut wood, it features a design inspired by the sumptuous Louis XV style. Its line is wavy characterized by curls and volutes, supported by three feet designed to be placed against the wall. From a functional point of view, this gueridon is perfect as a support base for small collectibles such as vases or ceramic sculptures. Its scenographic presence will immediately attract attention and will highlight your exhibited work of art, but it can also be considered a single decorative element without any object displayed on the top. Its conditions are excellent, a restoration was carried out with a conservative approach ensuring that the value of the passage of time is not erased. Display this table in the living
