Description

This elegant 1970s Reggiani floor lamp is fully adjustable and sits on a stable travertine base. Made in Italy to a classic mid-century design. We've had it rewired for the UK with a twisted black cable. However, we can easily adapt it for any destination; please contact us for more information. Practical and stylish: Italian lighting at its best! Reggiana was founded in 1957 and still sells luxury lighting in 80 countries worldwide. They consider their brand to be "constantly evolving, drawing on deep-rooted craftsmanship and heritage." We couldn't agree more.
