### Description

Magnificent Napoleon III period bird's eye maple pedestal table with a circular top enhanced by a meticulously arranged geometric veneer. The black painted edge accentuates the contrast and highlights the finesse and grain of the maple. The faceted shaft adds a touch of dynamism and creates subtle plays of light, reinforcing the aesthetic character of the pedestal table. As for its tripod base, it is distinguished by its fluid and graceful movement, inspired by the sinuous lines popular during the reign of Napoleon III. Each leg, dressed with a black painted edge, gives the piece perfect visual harmony. Combining functionality and beauty, this pedestal table will easily find its place in a classic or eclectic interior. \*\*\*\*\*Period: 2nd half of the 19th centuryExcellent condition after restoration in our
