Description

This unusual chandelier was made in France in the 1950s. Check out our photos: its elegant and simple design is enhanced with lovely touches of detail. Hearts adorn the upper part in gilded bronze, while leaves adorn the main part. The lower part of the light fixture is beautifully adorned with a glass sphere. The rest of the chandelier is decorated with the original icicles and glass beads. It has 8 arms and has been rewired. Stunning!
