

## Wrought Iron Candlestick - Craftsmanship Late 19th Early 20th Century

300 EUR

Period : 20th century

Condition : Bon état

Material : Wrought iron

Diameter : 43 cm

Height : 150 cm

### Description

Elegant wrought iron table candlestick with four light arms arranged in a circular crown, resting on a slender central shaft and a tripod base. The whole is distinguished by an airy and dynamic structure, combining taut curves, openwork geometric elements and forged twists, in an aesthetic at the crossroads of Gothic art and the neo-medieval or Arts & Crafts style.
