Description

18k Yellow Gold Fancy Yellow Diamond Engagement Ring and Matching Half American Wedding Band Elegant jewelry set featuring an engagement ring set with a natural fancy yellow diamond in an old cushion cut (old cushion cut), accompanied by its matching half American wedding band. The center stone, weighing approximately 0.40 ct, is distinguished by its intense lemon yellow hue and exceptional brilliance. Mounted in a six-prong prong setting, it rests on a yellow gold beaded setting, which highlights the intensity of the color. This diamond has excellent clarity (VVS2), with a tiny chip noted on one edge, almost invisible to the naked eye or a loupe. The engagement ring is flanked by brilliant-cut white diamonds set in an elegant channel bordered by beaded friezes, a refined

process that allows for perfect alignment of the stones without visible prongs. The matching half-American wedding band features the same design, with a line of white diamonds also set in a beaded channel, covering only half of the band, in keeping with the style of American wedding bands. The two bands can be worn separately or together, forming a perfectly balanced ensemble that is refined, modern, and timeless. Features Metal: 18-carat yellow gold (750/1000) Center stone: natural fancy yellow diamond, old cushion cut, approx. 0.40 ct Diamond quality: VVS2, with reported micro-etch Other stones: approx. 0.40 ct of white diamonds, brilliant cut Setting type: prongs for the center diamond, invisible channel for the secondary diamonds Bands: engagement ring + matching half-American wedding band Finger size: 52.5 Resizing possible Total weight: 5.24 g
