Description

Important bronze from the second half of the 19th century representing a young faun waking up. Inspired by Claudion, the artist depicted a young faun sitting on a rocky mound with a sheepskin at his side and a pan flute worn over his shoulder. He has a very realistic attitude with a stretching movement while rubbing his eyes. A lot of chiseling work and a very beautiful old patina ranging from shades of green to medal brown. A very beautiful large bronze. Dimensions: 59 cm high We deliver, and we ship all over the world, please contact us for a precise quote.
