### Description

An oval frame to be placed at the beginning of the 20th century in a style that is at the very least original and interesting. Made of silver metal forming an openwork lace ribbon that ends at the bottom in the shape of a bow, the flat contour towards the inside has somewhat lost its silvering. This in no way detracts from its originality with this lace frieze which is reminiscent of the paper found in the candy boxes of yesteryear. Dimensions of the oval 9.5 x 14 cm Shipping in France and internationally, contact me for terms and conditions
