Description

A fairly large bowl...Turned terracotta...With a white glaze on the inside...And a multi-colored painted decoration...Quite naive but nicely constructed decoration...!Note for me the decoration in the background of a dove and a sprig of mistletoe...If ever someone tells me more precisely I will rectify...!Late 18th century...In good condition, with its manufacturing imperfections...And small chips (see photo)...Besides, if you need more, no problem...For me, from the south of SPAIN...To a nice sound when we make it jingle...!Weight... 1 kilo 630
