Description

Pot-shaped vase in multi-layered glass with a reserve decoration of a lake landscape, acid-etched. The base draws the edges of a lake from which trees rise, their foliage in a "frosted background" ending at the neck. This vegetation is treated in brown and contrasts with the green of the islets reflected in the lake. The depth of field is accentuated by the work of acid-etching the different decorations, which is made possible by the multi-layered technique. This large vase is in perfect condition. Signature "Daum Nancy" with the cross of Lorraine.
