Description

superb rare Renaissance period table in walnut from France from the 16th century. Very beautiful table that can be used as a presentation table or desk since it has a height below the belt of 64cm. Very beautiful top with its carved frieze. The belt is decorated with spinning tops at the corners. It rests on a base with carved skates connected by a carved wooden spacer. It rests on 7 carved columns that make us think of the columns of a Roman temple. Magnificent patina and in superb condition. Restorations of use and maintenance. Delivery in Belgium, France and internationally. Visible in our 2500m² showroom at 41 Rue Henri Wafelaerts, 1060 Brussels, Belgium. More information & photos on request.
