Description

Cima International "Space Age" fiber optic lamp
Black painted cast iron base that contains a 220>12V transformer
Hemispherical globe in chrome-plated plastic, pierced with dozens of holes
Fiberglass bundle held by a metal ring, which springs from the top and gradually tints when the lamp is in operation.
Small motor + colored filter disc
The first examples of this lamp came out around 1968-69, at the height of the "Space Age" design which favored chrome.
Cima KG/Cima International was founded by Wolfgang Hochmuth in Nuremberg in 1963. Specializing in "special effects" lighting, the company filed eleven patents related to optical fibers before ceasing its activity in 2004.
Height ball 18 cm
Height Palm tree 35 cm
