Description

Rectangular Italian mid-century mirror with stylized engraved decoration, 1950sThe mirror has an 8 cm wide frame with engraved decoration.The four corners are rounded, and approximately 25 cm to the right and left of the corners, the edge is wavy, after which the outer frame runs straight again.An airy, stylized leaf band runs along this 8 cm wide frame, harmoniously matching the wavy outer edge.The leaves are narrow and wider than oak leaves, with veins and ribbed outer edges, giving them a very authentic look.The engraving is beautifully and precisely executed, and the mirror glass is mounted on a solid wooden backing. The object has no damage, missing or damaged glass elements. There are signs of aging on the glass, which underlines the authenticity of the object
