### Description

Functional Brass Compass Table - Circa 1950-1970  
Dimensions: Diameter 42.5 cm - Height 50 cm and decorative functional compass table made of brass, dating from the mid-20th century. The circular top features a large compass rose with cardinal points and degree markings from 0° to 360°, protected by a domed glass cover. At the center, a working magnetic needle indicates the true north, making this piece both decorative and functional. The brass structure, including the elegant tripod base with crossed legs, reflects the refined design style of the 1950s-1970s. A rare find for collectors and lovers of vintage nautical or industrial decor. as a conversation piece or a decorative side table with authentic navigational flair. Condition: Natural patina to the brass, minor surface wear to the dial.
