Description

Large silver-plated metal planter / centerpiece with its silver-plated metal interior. A charming decoration of pearl friezes and interlacing resting on 4 palmette feet. Length: 35 cm Width: 22 cm Height: 9 cm Very good condition, passed through the hands of the polisher to restore its shine, the interior shows some traces of silvering pitting, nothing serious since it is intended to be garnished. A trace of a punch to be defined. A pretty decorative piece.
