Description

Beautiful large crystal vase, "Thorns" model, also called "épine", by Lalique. Very aesthetic piece with these geometric circular pressed-molded patterns and these black enamel highlights all over the vase (it exists without enamel, see last photo). A large open neck in brilliant crystal finishes this particularly successful model. Last piece sold in the auction room in screenshot. 25 cm high, 3.4 kilos, signed under the base, well-referenced model. Very beautiful modern vase, timeless
