Description

Bold and sculptural, this unique ring combines precious materials with a strong contemporary aesthetic. The wide black bakelite band houses a faceted gray quartz cabochon, set in a yellow gold setting finely adorned with sparkling rubies. A statement piece that combines vintage charm with a decidedly modern touch. The striking contrast between the deep black of the bakelite and the soft reflections of the gray quartz is enhanced by the vibrant sparkle of the ruby halo. Perfect for collectors of unique jewelry or anyone looking for a bold and refined piece.
