Description

Beautiful enameled glass bowl by Josef Lenhardt, Steinschonau bohème glassworks. Very pretty old black enameled glass bowl by the famous glass decorator Josef Steinschonau. Fine hunting scene at court. We see a gallant and a nobleman on horseback with a dog engaged in hunting. A dog in the foreground and a castle in the background enhance the whole. Very beautiful creation, reminiscent of the pieces of Emile Gallé from the same period. Note the beautiful multi-lobed navette shape on a pedestal. Clearly referenced piece, the latest photos show you other pieces close to the famous decorator. Perfect condition, 15.5 cm in diameter and 12 cm in height, circa 1880. Very beautiful old piece, as pretty in shape as in finesse, very elegant.
